

Never miss an opportunity to wow your administrators and improve your operation.

AHF's Benchmarking Express™ is a robust online program offering streamlined reporting, performance indicators, reports, statistics, and trend graphs that drive success. The program is free to AHF's self-operated acute care and senior dining members. It is a sophisticated system where members can enter monthly data points and analyze their operation across 30+ Key Performance Indicators (KPI). It goes beyond a simple annual dashboard of industry metrics, giving your operation data a home while providing real-time benchmarking functionalities.

AHF Benchmarking Express™ is a key tool for any operator:

- Provides new directors understanding of their operation
- Evaluates performance and identifies areas for improvement
- Supports budget planning and preparation
- Prepares organizations to fight contractor bids and intrusions
- Validates department's value
- Provides a personalized financial & KPI dashboard for each facility
- Offers access to benchmarking training and mentoring from AHF's benchmarking pros

Take Advantage of System-Level Functionalities:

- Easily add multi-location access to administrator profiles
- Unlimited access for institutional AHF members to view or edit data
- Compare system locations to one another for all 30+ KPIs
- Easily pull key reports, and switch between locations

Access Reports, Graphs and More:

- Access annual reports of key industry data points with simple comparisons
- Pull validation reports, personal dashboards, and more for 30+ KPIs
- Compare your facility using year-over-year trend graphs, scatter plots, and our robust benchmarking analysis tool
- Export, save, or print any report, graph, or table you see in the system at the click of a button

Why Benchmark with AHF's Benchmarking Express?

- It is a robust, powerful, online analysis tool – and it is free with your AHF institution membership
- Access to 30+ Key Performance Indicators
- It is **real-time**, allowing operators to benchmark immediately upon entering data and access the system 24/7
- AHF's program is the only system offering benchmarking specific to self-operated operations giving you a clean look at the industry
